

MEDALLIONS

Tokens of Service

Share your pride in service by striking a customised medallion or coin for your unit. Exchanging these tokens is a tradition among armed forces across the world, and each medallion tells its own tangible story of service, commemoration and camaraderie. Over the past 30 years we have designed and crafted thousands of medallions for Navy, Army, and Air Force, including for successive Service Chiefs. Chances are you have one of our designs in your own collection!

Coin creation process

QUOTE: Your quote includes setup fees and unit price breakdowns.

ARTWORK: Once you have accepted the quote our experienced design team will work with you to create detailed B&W artwork and a digital mock-up.

PRODUCTION: Production and delivery time is about 4 weeks from receipt of your signed approval.

SETUP FEES: A once-off setup fee is charged to cover creation of the medallion dies. Subsequent re-orders of your medallion will not incur this fee.

Engraving style

Medallions are created as either 2D or 3D engravings.

2D: Medallions created with this method are not totally flat, rather they have two levels – the background and a raised design.

3D: Gives a sculptural feel to a medallion and allows for greater dimensional detail in the design, such as replicating a face.

2D ENGRAVING

3D ENGRAVING

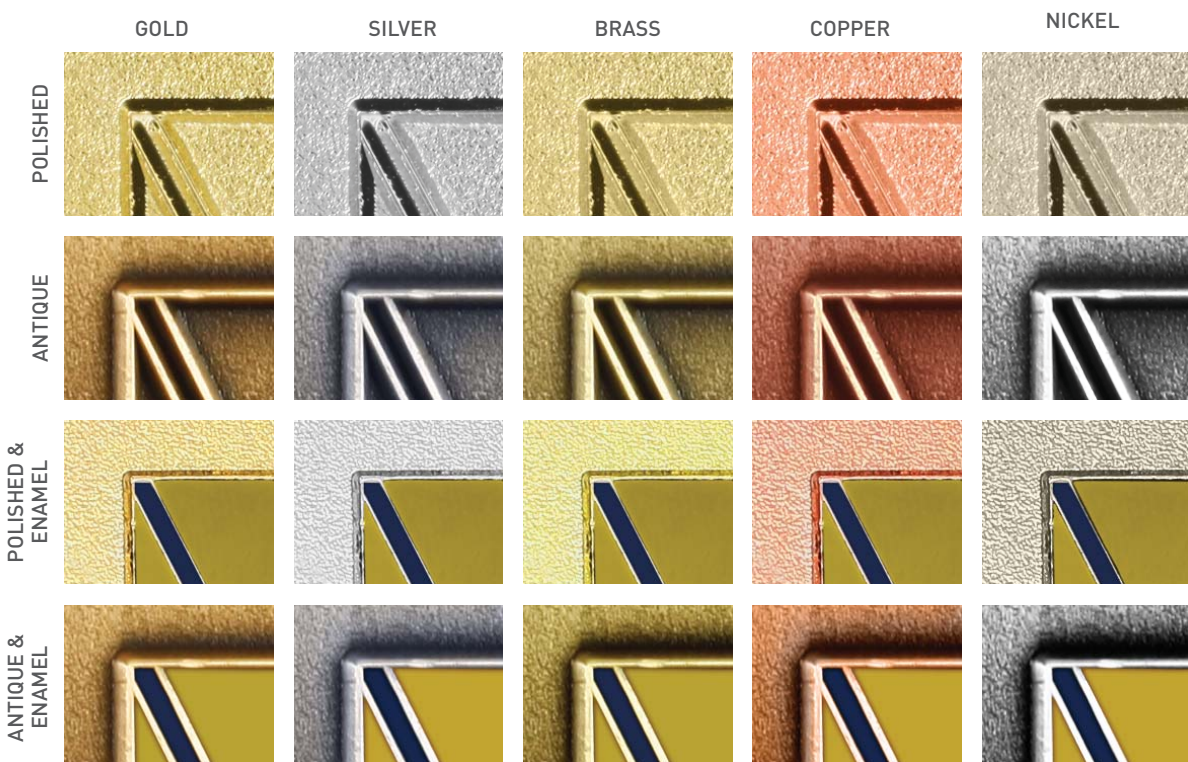

Medallion finishes

POLISHED: Medallions are electro-plated in gold, silver, brass, copper or nickel.

ANTIQUÉ: The plated medallions are submerged in an oxidising solution which causes the surface of the coins to darken, giving them an aged look. The raised surfaces are then polished to give definition.

ENAMEL: Colour is hand applied to select sections of the medallions to make the design really stand out. Ideal for reproduction of badges or for emphasis.

SPECIALTY FINISHES: A range of specialty finishes, such as black dye, diamond-cut edges and two-tone plating, are available to make a truly special piece. Contact our friendly team for more information.

Packaging and presentation

Each medallion is supplied in a clear PVC envelope at no extra cost. A range of other packaging and presentation options is available.

VELVET POUCH

Add a touch of class with this sewn black velvet pouch with top drawstring.

PRESENTATION WALLET

These soft vinyl wallets with flocked interior and medallion recess are a cost effective presentation option.

PRESENTATION BOX

Add to the perceived value of any medallion presentation with these black leatherette presentation boxes with spring close lids. The moulded interior is flock finished.

MEDALLION STAND

This elegant black acrylic stand is comes in a form-cut gift box to accommodate the medallion and display stand in a set. The stand front face is designed to accommodate an engraving plate (not supplied) if required.

MEDALLION BLOCK

This rich black acrylic plinth is an outstanding display option. The solid block's face is ideal for affixing a message plate (not included). It comes in a form-cut gifting box with space for the display and coin.
